(Charotar Institute of Paramedical Sciences)**

**Charotar University of Science & Technology  
(CHARUSAT)**

## Report

---

**Date:** 13<sup>th</sup> February 2021  
**Venue:** MTIN Auditorium  
**Time:** 10.00 am- 1.00 pm

**Registration:** 48 Students  
**In person:** 41 Students

With the commencement of the program it was fairly observed that the alumnus were quite enthusiastic to reminisce their moments with their old buddies and their fellow faculties. A kind of Deja-vu was observed among the former students and faculties; delighted to meet the new faculties in the family of CIPS and were little puzzled with current role of their life, recalling the journey from where they actually made the way to the world. Happiness and Gratitude were the utmost feeling that was felt in when all the former students were with us. As scheduled registration started exactly on time and a token of gratitude was distributed to the alumnus.

The master of ceremony Ms. Foram Shelat (Assistant Professor) walked the gathering through the voyage of CIPS of 2016 to CIPS of 2021 and the alumnus were delighted and proud to be the part of our family, furthermore Professor Darshan Patel (Principal CIPS) reminisced and marked the evidences of dilemma of the first batch and the faith that they gave to a incepting institute with the hopes of their career. Prof. Darshan Patel further added and addressed the difficulties that he and the batch faced and overcame and grew with togetherness as a team. Furthermore he enlightened us with generous donation and adoption of our Institute by BD Patel Family.

The talk was more focused to the role play of paramedics to the society. Professor Patel explained how allied healthcare professionals played a vital role in the COVID-19 situations and played a linchpin to the medical team hand-in-hand in every moment. He explained, the values in coming times, about research and importance of our professions irrespective of any department, paramedics would serve the mankind as “*Nightingale of care*”.

Furthermore adding to the statement in regard to the institute's growth, Principal referred that the growth of an institute depends not only to the existing facilities, faculties and existing students but remarked that the growth of every alumni reflects the authenticity of the Alma mater they belonged.

Every Alumni introduced themselves and shared their experiences with the institute, their views with the juniors and actively participated in the fun games with the existing students. Faculties who were in the initiation with the first batch shared their moments with the group and how they equally grew as a family. The weather was mostly nostalgic, students explained their thoughts, "from nowhere to somewhere" in the university and the journey with ups and downs, and fact of truth was each and every fellow alumni were evident of the scenario. An alumni from department of OT & AT who is in UK pursuing her Masters in Cardiology & Medicine shared her experience.

With the progression of the event, the main agenda and core was the panel discussion- with several Q&A's were asked by the existing students and was addressed by the alumni and supported by jury. In general, all the alumni represented their concern to earn the technical skills which are most likely required for the attainment of any kind of job, they highlighted that basic knowledge, technical skills and self-confidence is something which are likely to help to

get absorbed in work place. They further added that there is no alternative of hard work in the initial stages.

Regard to the same Dr. Nilesh Pandey, Dr. Dhara Patel, Mr. Manna Debnath, Mr. Akhlaque Ahmad and Mr. Jaydev Pargara, heads of their respective domains as jury, affirmed and assured the gathering regarding the same highlighting the concerns of alumni and prospects of career for the existing students.

Finally Mr. Yogesh Vaghela, concluded with a vote of thanks for the sessions followed by a group photograph of the entire gathering and everyone headed for the lunch. The entire event was organized backed and supported with association of CAA-CHARUSAT and CIPS core team.
