Number of Students Participated: 140

Target Audience: MBA / PDGM Batch 2014-16, Semester - III

Brief Report

Soft Skill plays a very important role in any professional career. These are the attributes that enable one to engage in meaningful interactions with others. Most of the jobs require teamwork, and hence it is important to possess soft skills to increase the employability of students. Keeping this as an objective, a workshop on “Soft Skills” was organised under the mentorship of Mr. Shailesh Thakkar, a renowned Management and Spiritual Mentor. Mr. Thakkar highlighted the importance of soft skills to the students and also emphasised to practise the same to make it a part of life. Practical activities were conducted in the workshop and one-to-one suggestions were given to the student.

Name of Activity: Emotional Intelligence & Spiritual Quotation

Date of Activity Conducted: February 23, 2016

Faculty Coordinator / Resource Person: Mr. Bhagyeshbhai Thakkar (Principal, GEB School, Vadodara)

Number of Students Participated: 120

Target Audience: MBA / PDGM Batch 2014-16, Semester - IV

Brief Report

With the ever increasing competition in the corporate world, it is time to understand the importance of not only the Mental Intelligence but also the emotional intelligence and spiritual quotients. To make students aware about the same, a session was organised for MBA / PDGM Batch 2014-16, Semester – III students. Mr. Bhagyesh started with a simple story of an ambitious and successful businessman who loses his control on very silly topics and was not able to control his emotions. Emotional stability is very much required for any purpose whether personal or professional. Mr. Thakkar also emphasized the role of spiritual quotient in the holistic development of an individual and society at a large.

Commencement celebration week was organized during 06-9th July, 2014 at PDPIAS for the official welcome and awareness of the freshly admitted students to the second batch of Dual Degree (BSc + M Sc) program in Biological Sciences. The program aims at creating awareness in the students about their University and Institute and get accustomed to the University culture, faculties and classmates, so as to enable a comfortable and hopeful beginning to their careers. First commencement celebration in July, 2014 was planned over 6 days and based on the feedback of the same; several necessary changes were incorporated in the schedule of this orientation program.

The orientation program for academic year 2015-2016 was planned over 4 days (detailed scheduled attached) with initial three days describing the entire academic and administrative system applicable to

them as CHARUSAT students as well as the course related specific regulations, structure and teaching-learning practice. Co-curricular and extra-curricular opportunities of overall growth and development as an individual were also described. All the students were instructed in advance through constant follow-ups through phone calls and SMS about the beginning of the session and the importance of attending the orientation program.

Day 1:

- The program was formally inaugurated in the presence of **Dr B G Patel, Provost, CHARUSAT** and **Shri Devang Joshi, Registrar, CHARUSAT** who

decorated the dais. **Prof R V Upadhyay, Dean, Faculty of Applied Sciences and Principal, PDPIAS**, who also shared the dais, formally welcomed the students and parents. Subsequently, the Provost and the registrar also addressed the audience.

- In the next session, CHARUSAT inception and progress were demonstrated as a short movie followed by which a detailed presentation on the Institute (PDPIAS) profile was delivered by Dr Darshan Patel (In-charge co-ordinator, BSc). He also covered the salient features of the progress and performance during the first year of B Sc program during his talk.

- Parents were invited on first day for interaction. Majority of the admitted students attended and were registered formally. **The participation by parents had been overwhelming as a total of 89/117 students were accompanied by parents as**

compared to 2014 during which 48/121 students were accompanied by parents. The invited parents and students were treated to a welcome lunch.

- In the post lunch session, an open interaction of parents and students with all the faculty members involved in delivering dual degree courses was organized. The very critical concept of Counselors and Counseling practiced at CHARUSAT was

explained in detail by Dr Janki Thakker. Parents and students raised various queries ranging from scopes of subjects to hostel and transport facilities which were satisfactorily answered. In general the concept of counseling was appreciated by the parents.

- Following the interaction session, Dr Jagdish Patel, The Head, Department of Biological Sciences delivered a talk on course highlights and its unique features.

- The last session on day-1 was reserved for PDPIAS visit which was arranged to demonstrate

the infrastructure and facility available for them. Small groups of parents and students were taken across the Institute guided by the team of research scholars. Visiting parents as

well as students were found pleased and satisfied at the end of the day, with several of them personally meeting faculties to express their satisfaction and share their concerns.

Day2:

- In the pre-lunch session Dr Seema Amin took a session on curriculum execution including the course structure and time-table guidelines.

- Subsequently, a short interactive session called '**Being Honest**' was included on spot, where students were asked to share their honest opinion about several questions posed about their career choice, choice of CHARUSAT as the academic destination, perception about career and scopes in Science, the critical shift from school to University system etc. Students gradually opened up and spoke their minds. Confusions and queries were clarified while expectations and suggestions raised were noted down.
- After an interaction of about thirty minutes, faculty introduction was scheduled. Every faculty from Biological, Physical and Chemical Sciences, involved in teaching the B Sc courses introduced themselves as well as their subjects.

- Post lunch session was covered by Dr Bragadish Iyer who elaborated on academic regulations applicable to them, examination and grading system, CBCS and related topics. Before the commencement of this session,

the booklet of academic regulations and syllabus was distributed amongst the students so that the explanation imparted can be followed in reference with it. Their queries were time and again answered.

Day 3:

- In the pre-lunch, an extremely interactive session was conducted by **Shri Devang Joshi, The Registrar, CHARUSAT**, who talked about administrative systems of CHARUSAT as well as infused confidence and enthusiasm in students to take up challenges and develop focus to have the goal achieved. He also talked

about an interesting concept of **what is taught vs what is not taught** at Institute; eventually inspiring students to develop and utilize their inbuilt skills and motivations so as to excel.

- Ahead in the schedule was the talk on various extracurricular and co-curricular activities pursued as CHARUSAT and PDPIAS through which they could have ample opportunities to develop their personalities and talent. The talk included introduction to SPOURAL, sports and related avenues, various students' chapters like Central Council, Kadam, Quill etc. and the initiatives taken by them towards societal development were discussed. An overview of women's development initiatives and anti-ragging cells was also narrated.

- Post lunch session began with a motivational talk by Dr Bragadish Iyer, who discussed the growing scopes of careers in science and how they can make a difference to the society; with an intention to set them thinking that there can be promising contributions to societal developments by shaping career in Science.
- Followed by the talk, was a session conducted by Dr Vaibhav Patel and Mr Manan Shah who engaged the students with interactive games and team work based activities that were meant to mediate comfortable acclimatization with the classmates.

Day 4:

- The last day was entirely reserved for e-governance entries and generation of permanent IDs. Students in batches of 20 were aided to do the same. Ms Mauna Patel, Ms Miral Patel and Mr Suchit Patel had efficiently executed the e-governance enrolment of all 120 students in a single day; supervised by Mr Rakesh Dave. In a parallel activity, students were taken in batches for CHARUSAT visit, assisted by research scholars Mr Samir Dedania, Mr Alex Chauhan, Mr Nilesh Pandey and Mr Nirmal Patel.
- A feedback was also taken from students in the form of a questionnaire about the commencement program, designed and analyzed by Dr Subrata Pal. The feedback analysis and general review from students' point of view has been presented in the annexure.

Brief Report – Bridge Course on “Communication Skills”

A bridge course on “Communication Skills” was organised for Bachelor of Business Administration (BBA) – Batch 2015-18, Semester I Students. The basic objective of this bridge course is to train the students in basic communication skills like writing an essay, listening and drafting a report. A total of 49 students participated in the bridge course.

Communication is “*the transfer of information from one place to another*”. Various games also helped the students to understand the role of communication in the professional as well as personal life. Deliberate discussion on body language was also included in the Bridge Course as Body language speaks louder than any words we can ever utter.

After attending the Bridge Course the students are expected to:

- Demonstrate the understanding of communication process
- Understands that communication can be interpreted differently depending on the audience
- Implement the teachings of the course in their BBA Programme
- Avoid the loopholes of Bad Communication Etiquettes
- Write, speak and listen with greater confidence

ચાંગાની ચરોતર યુનિવર્સિટી ઓફ સાયન્સ એન્ડ ટેકનોલોજીમાં સર્વગ્રાહી શિક્ષણ થકી વિદ્યાર્થીઓનો સર્વાંગી વિકાસ થાય તે માટે સતત બીજા વર્ષે નવીનતમ પ્રયોગ કરવામાં આવ્યો છે. જેમાં પ્રથમ વર્ષના 1250 વિદ્યાર્થીઓને શિક્ષણની સાથે લિબરલ આર્ટસના પાઠ પણ શીખવવામાં આવી રહ્યા છે.

ઈન્ડુક્ટ્રી ઈકોવાલા ઈન્સ્ટિટ્યૂટ ઓફ મેનેજમેન્ટ સંચાલિત હ્યુમાનિટીઝ એન્ડ સોશલ સાયન્સીઝ વિભાગ દ્વારા પેઇન્ટિંગ, ફોટોગ્રાફી, સ્કલ્પટીંગ, પોટરી એન્ડ સિરામિક આર્ટ, મીડિયા એન્ડ ગ્રાફિક ડિઝાઇન

ચાંગાની ચારુસેટ યુનિવર્સિટી દ્વારા પ્રથમ વર્ષના વિદ્યાર્થીઓ માટે વિવિધ આર્ટસની તાલિમ શરૂ કરાઈ છે.

અને આર્ટ એન્ડ ક્રાફ્ટ જેવા લિબરલ આર્ટસના છ કોર્સિસના વર્કશોપનો પ્રારંભ કરવામાં આવ્યો છે. જે પૈકી કોઈ એક કોર્સ ચારુસેટના પ્રથમ વર્ષમાં અભ્યાસ કરતા

વિદ્યાર્થી કરી શકે છે. ચારુસેટના ફેકલ્ટી ઓફ મેનેજમેન્ટ સ્ટડીઝના ડીન ડો.ગોવિંદ દવેએ જણાવ્યું હતું કે 'સર્વગ્રાહી શિક્ષણ થકી જ વિદ્યાર્થીઓનો પરિવર્તન, પ્રોફેશનલ

અને સોશિયલ એમ ત્રણ ક્ષેત્રમાં વિકાસ થઈ શકે છે. આ હેતુને સિદ્ધ કરવા ડિપાર્ટમેન્ટ ઓફ હ્યુમાનિટીઝ એન્ડ સોશલ સાયન્સીઝ વિભાગની સ્થાપના કરવામાં આવી છે.

શ્રેષ્ઠ કલાકારો અને તજજ્ઞો દ્વારા તાલીમ

લિબરલ આર્ટસના કોર્સિસ વર્કશોપમાં તજજ્ઞો દ્વારા તાલીમ આપવામાં આવી રહી છે જેમાં અમદાવાદની નેશનલ ઈન્સ્ટિટ્યૂટ ઓફ ડિઝાઇનના દિલીપ ઓઝા અને રૂપેશ વ્યાસ, ફોટોગ્રાફર સુરેશ પારેખ, સુનિલ આડેસરા, મુકેશ આચાર્ય તથા ચિત્રકારો કનુ પટેલ, હેતલ શાહ અને અમિતાભ મડિયા અને રાષ્ટ્રીય અને ઓતરરાષ્ટ્રીય ખ્યાતિ ધરાવતા શિલ્પકારો અને ડિઝાઇનરો પણ આ વર્કશોપમાં સેવા આપી રહ્યા છે.

Key Learning from the Workshop on Liberal Arts:

At the end of the course, students have developed the ability to enjoy, interact and performed arts and aesthetics with great deal of enthusiasm. Students have developed the ability and creativity to transfer sense of design and innovation. Those students who paint learn to think with an open mind, to look at situations creatively. They have also learned to express themselves more deeply through their art. They developed critical-thinking skills and must make decisions about what works and what doesn't on their own.

Conclusion:

It is a historical event for us as such an initiative has been taken for the first time by any University at national level. The learning from these courses will help students to cultivate the necessary skills to be responsible citizens as well as professionals in a diverse and increasingly interdependent global world. At the end of the course, students have developed the ability to enjoy, interact with and perform arts and aesthetics; and have developed the ability and creativity to transfer sense of design and innovation in their areas of science and technology.

COMMUNITY AWARENESS PROGRAM on World Stroke Day

Date: 29.10.2015

Time: 9 am onwards

@

**Village: Changa, Valetva, Maehlav,
Padghol, Demol**

Report on ARIP's World Stroke Day event on 29th October 2015

Stroke is one of the leading causes of disability in India (especially in the rural region) and across the world. Physiotherapists play a major role in reducing the burden of illness on public health due to stroke. Four out of five strokes occur in low and middle income countries who can least afford to deal with the consequences of stroke. If nothing is done, the predicted number of people who will die from stroke will increase to 6.7 million each year by 2015. Six million deaths could be averted over the next 10 years if what is already known is applied.

Picture 1: Screening sessions

The faculties and the students of ARIP have organized WORLD STROKE DAY in six villages: *Changa, Valetva, Maehlav, Padghol, Demol and Demol* on 29th October 2015. As part of this event we set up blood pressure measurement booths, education and counseling about Stroke awareness and Physical activity promotion among the residents of villages. Overall **207 participants** have attended our camp. It was handled by 14 M.P.T. and 16 B.P.T. Student; in total 30 students participated in the event. This event was successful in achieving our

objectives of reaching out to the community and helping them understand about the stroke, need for rehabilitation (Physiotherapy) and preventive measures.

Our entire stroke day event details are included in the official website of World Stroke Campaign ([http://www.worldstrokecampaign.org/india 2015/973-india-anand-changa-stroke-day-2015.html](http://www.worldstrokecampaign.org/india%202015/973-india-anand-changa-stroke-day-2015.html)) created by the World *Stroke Organization* (WSO). This event was jointly organized by the Department of Neurophysiotherapy and Community Physiotherapy, Ashok & Rita Patel Institute of Physiotherapy, CHARUSAT.

Dear Sir/ Madam

Greeting from MTIN

In India, National Nutrition Week is celebrated each year from 1st September to the 7th September. The main aim of this campaign is to create awareness on the importance of nutrition for health which has far reaching implications on development, productivity, economic growth and ultimately national development. The campaign was first started by the central government in the year 1982 in order to encourage the good health and healthy living through the nutrition education as the malnutrition is the main obstruction to the National Development. To encourage the people for the same, the Food and Nutrition Board including 43 units (departments of women and child development, health and NGOs) is working all over the country to support the activities.

Objectives of the National Nutrition Week Celebration:

- To review the frequency of problems to various diet and nutrition in the communities.
- To evaluate the appropriate techniques to prevent and control the nutritional problems through deep research.
- To monitor the condition of the country for the diet and nutrition.
- To perform the operational research in order to plan and implement the national nutrition programs.
- To aware people through the orientation training about health and nutrition.

In order to support the National Nutrition Week 2015, we MTIN are putting in a small effort of organizing an expert session on **“Better Nutrition: Key to Development”** by Ms. Smita J Shah. Faculty members of CHARUSAT are warmly invited to take beneficieate of the session.

Topic: Better Nutrition: Key to Development

Date: 2nd September 2015

Time: 2:00 pm-3:30 pm

MANIKAKA TOPAWALA INSTITUTE OF NURSING
REPORT ON WORLD MENTAL HEALTH DAY CELEBRATION-2015

DATE: 10/10/2015

VENUE: Hospital for Mental Health, Vadodara.

TIME: 10.00 am

TOPIC OF POSTER EXIBITION: Myths about mental illness, Prevention of depression and suicide, symptoms of mental illness, prevention of mental illness

ORGANIZED BY: Nursing students

Theme: Dignity in mental health

Objectives of World Mental Health Day Celebration:

It is very essential component of mental health nursing to create awareness among students, staff nurses, patient and other health team members about the mental health and illness.

1. To create awareness about the mental disorders among mentally ill patient and family members.
2. To encourage students to organize and participate in different programme.
3. To enhance the knowledge on current issues in mental health nursing.
4. To make awareness about the theme of World Mental Health Day-2015

Thousands of people with mental health conditions around the world are deprived of their human rights. They are not only discriminated against, stigmatized and marginalized but are also subject to emotional and physical abuse in both mental health facilities and the community. Poor quality care due to a lack of qualified health professionals and dilapidated facilities leads to further violations.

The theme for this year's World Mental Health Day, observed on 10 October, is "Dignity in mental health". This year, World Health Organization will be raising awareness of what can be done to ensure that people with mental health conditions can continue to live with dignity, through human rights oriented policy and law, training of health

professionals, respect for informed consent to treatment, inclusion in decision-making processes, and public information campaigns.

We Manikaka Topawala Institute of Nursing, a constituent of CHARUSAT organized awareness campaign to sensitize the public on the theme Dignity in Mental Health. Our 5th Semester 57 B.Sc. Nursing students under the guidance of faculties have prepared around 15-20 Posters on Myths about mental illness, Prevention of depression and suicide, symptoms of mental illness, prevention of mental illness which were displayed in the circle. Around 500 odd pamphlets were distributed to public to create awareness on "Respect and treat the psychiatric patient with dignity. Very good response was received in terms of appreciation to students from public for the initiative shouldered by the students.

About the Program

Plasma processes are utilized for depositing nanostructured coatings. Plasma is a critical source of advanced deposition techniques such as sputtering, pulse laser deposition, chemical vapor deposition, etc. This workshop will give theoretical and practical exposure to such advanced techniques consuming plasma as an energy source.

A Workshop on
Plasma Processes

September 14-15, 2015

Supported under Research Promotion Scheme (RPS), AICTE

Workshop Report

Plasmas are partially ionized gases that contain approximately equal numbers of positively and negatively charged species. Their unique properties, however, make them a powerful tool used in the modification of materials, ranging from material removal (etching) to the deposition of thin films and coatings. The production of plasma and their interactions with surfaces and growing films is one of the reasons that plasmas have assumed a dominant role in materials processing. More specifically, plasmas are routinely used to modify surface areas up to tens of square centimeters. In some cases, treatment areas are of the order of square meters. The development of new plasma-based processing systems has driven the evolution of materials.

This workshop was aimed to familiarize undergraduate students with various aspects of plasma and their processes. The objective of the workshop was to give theoretical and practical knowledge on various topics such as an introduction to plasmas, a comprehensive discussion of chemistry of plasmas and understanding the role of plasma processes in materials modification.

This workshop covered fundamental aspects of plasmas as they relate to materials processing, particularly deposition and surface modification. This includes the basics of plasma chemistry, plasma-surface interactions, plasma sources and plasmas in deposition processes. The students were given practical exposure to DC/RF magnetron sputtering process one of the advanced technique utilizing plasma for depositing nanostructured thin films on various substrates. Dr. Sushant K. Rawal, Prof. Kamlesh V. Chauhan and Prof. Kartik H. Patel from CHARUSAT University provided their expertise on various theoretical and practical sessions conducted in this workshop. The response to this workshop from students was overwhelming; total 257 students from 33 different institutes registered and participated in this workshop.

Seminar on “Basics and Selection of Insulation for Air Conditioning”

ISHRAE student chapter has organized seminar on “Basics and selection of insulation for air conditioning” on 21st January, 2016 for student members of ISHRAE student chapter. It was delivered by Mr. Dhiren vyas, National manager at Armacell India Pvt. Ltd, Pune, Maharashtra. He has secured more than 17 years of industrial experience. He was associated with Tranter India pvt. ltd., Elecon engineering, IDMC ltd. Talk was delivered for around 90 minutes.

Following points has been discussed during the session.

- Basics of heat transfer
- How insulation works
- Critical thickness of insulation
- Different materials used as insulation material in air conditioning system and its properties
- Design criteria for insulation in air conditioning system.

About the Program

Sputtering is a widely used deposition technique to deposit thin films on substrates. The most common approach for growing thin films by sputtering is the use of a magnetron source through which positive ions bombard the target. The target can be powered in different ways, ranging from direct current (DC) for conductive targets to radio frequency (RF) for non-conductive targets. This seminar is aimed to cover the basics of sputtering process along with the practical coverage of such sophisticated technique.

A report on Workshop "Synthesis by Sputtering" held on February 26, 2016

A workshop titled "Synthesis by Sputtering" supported under Research Promotional Scheme RPS-AICTE was organized during February 26, 2016 to fulfill one of the deliverables outcomes of this scheme.

Sputtering is a widely used deposition technique to deposit thin films on substrates. The most common approach for growing thin films by sputtering is the use of a magnetron source through which positive ions bombard the target. The target can be powered in different ways, ranging from direct current (DC) for conductive targets to radio frequency (RF) for non-conductive targets. This seminar covered the basics of sputtering process along with the practical coverage of such sophisticated technique. Dr. Sushant K. Rawal and Prof. Kamlesh V. Chauhan from CHARUSAT University delivered talks on 'Basics of Sputtering' and 'Parameters of Sputtering Process' followed by practical session in this workshop. The response to this workshop was good and total 24 participants attended the workshop.

The copies of brochure with registration form and photos of the workshop are attached herewith.

One day seminar on "NANOTECHNOLOGY FOR CONSTRUCTION"

Date:

5th October, 2015, Monday

Place:

RPCP Auditorium

Time:

10.00 AM to 4.30 PM

About the seminar:

Society of Civil Engineering, CHARUSAT in collaboration with Zydex Industries, Vadodara is organising a one day Seminar cum Demonstration of technological development in the application of Nanotechnology in Construction". The present seminar is intended to share the information of nanotechnology based chemicals and its application in road and building constructions. The afternoon section will consist of live demonstration of chemical application on building and road surfaces for effective waterproofing.

At Zydex

Zydex Industries, are pioneered in inventing unique patented nanotechnology based environment friendly products for roads and building industry. The Construction chemicals developed by the Industry can help to create pothole free waterproof chemically bonded paved & unpaved roads with a combination of unique product range. Zydex Nanotechnologies waterproof the sub-base, quick prime the stones bases, do waterproof tack coat and chemically modify aggregates to bond with bitumen for superior coating, better workability and compaction. The technology is cost economical. The products of Zydex are widely accepted and marketed in the USA, Canada, France, Germany, Russia, Turkey, Ghana, Nigeria, India, Peru, Madagascar, Kenya etc.

Zydex are recipients of 2013 IRF Global Road Achievement Award (GRAA) for Research awarded by International Road Federation (IRF).

Topics of seminar:

Time	Topic	Expert
10.00 AM to 10.30 AM	Introduction	Mr. Shaji Mathew VP, Institutional Business & International Marketing
10.30 AM to 11.30 AM	Technical Talk	Dr. Prakash Mehta President, R&D, Zydex
11.30 AM to 12.30 PM	Lunch Break	
01.30 PM to 03.30 PM	Live Practical demonstration	Mr. Anupam Shil DGM Technical Services) & Ashish Upadhyaya, GM, Institutional Business

One day seminar on "NANOTECHNOLOGY FOR CONSTRUCTION"

First Unpaved Green Road Construction at Oman

The Challenge

A luxurious villa project of 304 units by Zain Property Development near Al-Seeb beachfront at Oman had its first 4 phases, out of 6, completed. The linking road from highway to the estate was owned by the government and was unpaved, subjected to heavily traffic movement (40 ton trailers). This resulted in generation of dust, creating issues related to:

- Safety - Due to impaired visibility
 - Road Longevity - Due to erosive loss of surfacing / binding materials
 - Health - For the inhabitants already occupying villas of first 4 phases
 - Maintenance - Requiring cleaning of windows and exteriors as a result of dust accumulation
- To resolve this situation the developer had the only option to make a conventional paved road at their own cost.

Project Details:

Name: Zain Property Development
(Dar-Al-Zain Project Link Road)
Associate: City Home Oman
Products: Terrasil, Zycobond
Period: September 2015

For constructing a road of 250m x 7m = 1750m²

- ☐ 360 kgs. of Terrasil
- ☐ 180 kgs. of Zycobond
- ☐ 6300 kgs. of Cement
- ☐ 10,000 gallons Water (Potable)

APPLICATION METHODOLOGY

- 1) Soil was brought in and laid over the base upto approx. 20 cm height

- 2) It was levelled and compacted to get a height of 10cm

- 3) Terrasil & Zycobond were added in a potable water tanker and then mixed properly

- 4) The soil was scarified and this solution was added till OMC

- 5) This wet soil was properly rotovated

ZyCOBOND

Zydex®

First Unpaved Green Road Construction at Oman

APPLICATION METHODOLOGY

6) Then Cement was added into the rotovated soil

7) The soil was once again properly rotovated

8) Then the soil was compacted

9) Once again Terrasil + Zycobond diluted water was sprayed till saturation

10) The road was again compacted

11) The side shoulders were compacted with portable 1 ton roller

12) The surface was again saturated with Terrasil + Zycobond diluted water and then small aggregates were spread over it

13) This surface was finally again compacted

14) After 15 days spray saturation will be repeated

BENEFITS

- ☐ Reduces health hazards in the vicinity due to dust
- ☐ Problem of dust thrown up from a passing vehicle reducing visibility is controlled
- ☐ Reduces 'Washboarding' (surface corrugations) causing loss of control
- ☐ Protects from skidding on mud after rain
- ☐ Low Maintenance of the road
- ☐ Long lasting water-resistant unpaved road

Summary of Workshop

Consideration of the dynamic behavior of any structure is of fundamental importance in modern structural design. As this field has great social and economic importance, there is a need to provide more formal training on structural dynamics and earthquake hazard mitigation.

Experiments are quite effective for demonstrating basic concepts in structural dynamics and Earthquake engineering. Concepts in dynamics such as natural frequencies and mode shapes can clearly be portrayed during such experiments. After having clear understanding the behavior of structures subjected to earthquakes, it is easy to modify the dynamic characteristics of the test specimens, selecting different earthquake inputs, and measuring and analyzing structural responses. Participants learn these principles through the introduction of a series of experiments and demonstrations through this course.

Dear All,

Our Information Technology Department has organized a "Technical Event for Girls for 2nd,4th and 6th semester on 17/03/16 Friday.

Event's Name & Coordinator

- 1) Quiz +Aptitude --> Chandni Shah and Neha Patel
- 2) Poster Presentation --> Sonal Rami , Purvi Prajapati and Ayesha Seikh
- 3) Code chef --> Nehal Patel, Vishwa Vala, Priyanka Patel.

Timing Of Event:

- 1) Quiz +Aptitude -->9:30 to 10:00 A.M
- 2) Code- chef -->10:10 to 11:10
- 3) Poster Presentation--> 11:30 to 12:15

Chandni Mann has shared google form for registration.

Now all coordinator have to prepare Event Guidelines and documents about their event .

Please Submit me your event documents by today before 3:30 P.M without fail.

Contest Guidelines

Quiz - First Round

- First round will be the elimination round
- Contestant need to create an account on Edmodo and join group - "AnnualdayQuiz-IT-2016".
- Contestant need to Open Quiz on Edmodo and before timer expire you need to upload all the answers.
- No extra time will be granted to compensate for lost time due to hardware failure, power outages, etc.
- No use of the internet is allowed.
- All participants will remain in the observing area and may not communicate with one another during the rounds.
- Time duration for the quiz is approx. 20 minutes.

Code- chef – Final Round

- After First round the qualified participants will be allowed to make their group of two participants.
- Time duration for the coding is approx. 40 minutes.
- No extra time will be granted to compensate for lost time due to hardware failure, power outages, etc.
- Only the first and second submission of a possible solution will be considered.
- All participants will remain in the observing area and may not communicate with one another during the rounds.

Title: Introduction to Wavelet Transform and its applications

Date and Time: 23-02-2016, 01:30 p.m. to 03:00 p.m. (2 Hours)

Resource Person: Prof. Mehul B. Shah, BVM Engineering College, V. V. Nagar

Summary/Topics covered in Expert Talk:

- ✓ Wavelets are mathematical functions which are used as a basis for writing down other complex functions in an easy way. These cut up data into its frequency components and so that we can study each and every part with more preciseness as it is scaled for our convenience. We may also term wavelets as a tool to decompose signals and trend as a function of time. Wavelets are certainly used in place of the applications of Fourier analysis as wavelets give more freedom to work on. In this paper, a basic idea of wavelet is provided to a person who is unknown with the idea of function approximation. Apart from pure mathematics areas, wavelets are highly useful tool in analyzing a time series. Wavelets are used for removing noise from a statistical data which is one of the most important jobs in data analysis.

Expert Talk on “DAE- Social Benefit & Natural Radiation K-40 Dose contribution”

By Mr. Rajeev Dhami

Kakrapar unit 1 was fully refurbished and upgraded in 2009-10, after 16 years of operation, as was Narora 2, with cooling channel (calandria tube) replacement. In March 2016 unit 1 was shut down due to a coolant leak, and repairs ran through to May 2019. Kakrapar 2 was shut down in July 2015 and restarted in September 2018. There was widespread corrosion in both Kakrapar units and coolant channels were replaced. Following the Fukushima accident in March 2011, four NPCIL taskforces evaluated the situation in India and in an interim report in July made recommendations for safety improvements of the Tarapur BWRs and each PHWR type.

A guest lecture was organized by the M & V Patel Department of Electrical Engineering on 06/10/2015 for the students. Mr. Rajeev Dhami was invited to talk on the topic “DAE- Social Benefit & Natural Radiation K-40 Dose contribution” during a seminar on “Indian Nuclear Power Program and Radiation- A Fact of Life” as he is having wide knowledge in the area of Nuclear Power Program and Radiation.

Shri. Rajeev Dhami is a Scientific Officer in Environment Survey Laboratory at Kakrapar Atomic Power Station Health Physics Division, Bhabha Atomic Research Centre, Mumbai. He has an expertise in Nuclear Power and its radiation effects and its control over the operation.

Shri. Rajeev Dhami explained the meaning of radiation and its impacts on human body, animals and vegetations. Also he explored the usefulness of nuclear energy in various fields like medical science, agriculture, food processing, water management etc.

The lecture explored the bright side of nuclear energy and also demised the shadow of risk associated with it. From the feedback received from the students it is revealed that all the students gained a must know facts of nuclear power which are not covered by the university curriculum. The main objective of this lecture is to enhance the knowledge nuclear power and its general radiation. The awareness regarding this need to be addressed as the society needs to be educated on the issue. The students understood about the scenario of the recent Nuclear Power Cooperation of India limited (NPICL) at various nuclear power stations across the country. Student of M & V Patel Department get benefited from the lecture and the materials shared by the expert and has an interactive session as well.

Mr. Jaison T John discussed about the power scenario of India including available energy resources. He explained why the nuclear energy is essential for the development of India. He also presented a detailed safety practice followed by Nuclear Power Cooperation of India limited (NPICL) at various nuclear power stations across the country.

The lecture encouraged the students to contribute directly or indirectly in promoting the nuclear energy and breaking the myths related with nuclear sector in the society. Expert Talk on “Hybrid vehicle and lithium-ion batteries for Hybrid vehicle”

By Prof. Satyam Panchal

A hybrid electric vehicle (HEV) is a type of hybrid vehicle that combines a conventional internal combustion engine (ICE) system with an electric propulsion system (hybrid vehicle drivetrain). The presence of the electric powertrain is intended to achieve either better fuel economy than a conventional vehicle or better performance. There is a variety of HEV types and the degree to which each function as an electric vehicle (EV) also varies. The most common form of HEV is the hybrid electric car, although hybrid electric trucks (pickups and tractors), buses, boats and aircraft also exist. The concept of Hybridization of cars results in better efficiency and also saves a lot of fuel in today's fuel deficit world. Though at present the concept has been put in to maximum utilization by Honda & Toyota, it is indeed an important research avenue for other car manufacturing units as well. A hybrid gives a solution to all the problems to some extent. If proper research and development is done in this field, hybrid vehicle promises a practical, efficient, low pollution vehicle for the coming era. One can surely conclude that this concept and the similar ones to follow with even better efficiency & conservation rate are very much on the anvil in today's energy deficit world

Prof. Satyam Panchal has discussed about the recent trends in Hybrid vehicle and lithium-ion batteries for Hybrid vehicle in its research progress at Canada.

The lecture encouraged the students to contribute directly or indirectly in electrical vehicle technology. The the main objective of this lecture is to enhance the sing the. Student of M & V Patel Department get benefited from the lecture and the materials shared by the expert and has an interactive session as well.

Date :- 30 July, 2015

Subject: Energy Conservation Awareness Program in Engineering Colleges

one day workshop on “**Energy Conservation Awareness**” has been successfully organized at Department of Electrical Engineering in association with GEDA on 30/7/2015. Over 225 students of 7th semester from electrical and mechanical department and faculties have participated in the workshop. (140 STUDENT OF ELECTRICAL DEPARTMENT).

We are very thankful to Er Yogesh Prajapati and Er Shakil Mansuri for conducting the workshop and delivering the valuable information about energy conservation awareness, its methodology and energy auditing procedure. The details topics on Need for EC, methodologies, energy auditing and EC opportunities in motors and pumps are covered in first session. In post lunch session, energy efficient lightning, pumps, fans and speed drives and tips for EC in AC, refrigeration, boilers and furnaces were discussed at length. The students actively participated in the last question-answer sessions and experts provided good interaction with students and faculties.

About The University

CHARUSAT is promoted by Shri Charotar Moti Sattavis Patidar Kelvani Mandal. It is established under Gujarat Act No. 8 of 2009, Govt. of Gujarat and recognized to award degrees as specified by UGC under Section 22 of UGC Act 1956. The university campus is sprawling over 105 acres of lush green landscape with ultra modern facilities for teaching, learning, research, sports, healthcare, student housing, food, banking, transportation etc. CHARUSAT currently offers professional education in Engineering, Pharmacy, Computer Application, Business Management, Applied Sciences, Physiotherapy and Nursing.

About The Institute

CSPIT is a pioneer Institute of CHARUSAT. The Institute offers UG, PG and PhD programs in EE, ME, CE, IT, EC and Civil Engineering. The Institute is established with a view to promote excellence in engineering education and to prepare the young talent to meet challenges of engineering and technology.

About The Department

Department of Electrical Engineering offers UG, PG (Power System) and PhD programs. It is equipped with high-tech laboratories for power system protection, electrical machines, PE & Drives, high voltage, PLC & Instrumentation and DSP. The department is also having a simulation lab with the highly professional software such as Power Factory, CYME, MiPower, PSCAD, MATLAB/Simulink, PSIM, PSPICE and SKM Power Tool.

About Workshop

This workshop will provide the hands on experience to the participants to work on Arduino Board. The workshop is specifically designed for the UG students, PG students and Industry personnel who wish to work in the area of automation and control using microcontroller. The workshop aims to cover the concept of Arduino open source software, hardware implementation concepts with hands on training with general purpose interfacing boards. Also, it covers the use of Arduino for different Small Robots (Robotics) and control of Motors Remotely. The use of the MATLAB/ Simulink support package for Arduino will also be covered. The detail exercises and examples on the applications of Arduino will be covered during these Five days. The experienced professors and engineers contributing in these areas will deliver the lectures during the program and share their experience and expertise with the participants working in this area.

Tentative Topics

- Introduction to Arduino. (History and about open source Hardware.)
- Basics of Atmel/AVR Microcontroller chips. Introduction to different hardware boards and Shields available on Arduino website.
- Details of structure, values (variables and constants), and functions. Basic digital input & output programming with delay functions.
- ADC and DAC Programming Logics. Interfacing to different hardware like LCD, 7 Segment LEDs, Matrix Keyboard, Bluetooth module etc.

- Speed control of Different motors with wire and remotely.
- MATLAB Simulink support package for Arduino

Registration Fees

Research Scholars/Students	Rs. 1000/-
Academicia	Rs. 1500/-
Industry/R&D Organizations	Rs. 2500/-

The faculties from the academic institutions, research scholars and the students can participate in the program. The registration fees for the participation include the charges for lecture notes, registration kit, refreshment and lunch. All payment should be made by a demand draft drawn in favor of "Charotar University of Science and Technology", payable at Anand. The completed registration form duly forwarded by the Head of the Institution, accompanied by the demand draft should reach the course coordinator on or before **14th Oct, 2015**. The seats are limited and the selection process will be based on first cum first serve basis.

Important Dates

Last date of receiving Application: 14/10/2015
 Notification about selection: 16/10/2015

Accommodation

The registration fee does not cover the travel and accommodation charges. However, the accommodation can be arranged on payment basis by informing coordinators in advance up to 14/10/2015.

**Report Summary
Five Days Workshop
On
"ARDUINO & ROBOTICS"**

Dates :- 19th Oct to 24th Oct, 2015

Contents:

Technical sessions on:

- What is ARDUINO? Different Arduino Hardware boards and its Shields
- Introduction to Proteus Design Suite Software
- Programs for Interfacing Different Devices with ARDUINO board and Interrupts Programs
- Arduino in Power electronic Converters
- Arduino with MATLAB

Sponsorship: From GUJCOST of Rs. 20,000/-

Brief of Workshop:

The 1st day of the Workshop is started with the inaugural function with Dr. A. D. Patel (Principle of CSPIT), Dr. Praghesh Bhatt (HOD, EE).

Topics covered on DAY 1:

- What is ARDUINO? Different Arduino Hardware boards and its Shields
- Step-by-step instructions for setting up the Arduino software
- ARDUINO Language Reference Structure, Values (Variables and Constants), and Functions.

Topics covered on DAY 2:

- Introduction to Proteus Design Suite Software
- Digital IN / OUT Programs with delay function and without delay function
- Analog IN / OUT, Control Structures and Arithmetic - Logical Operators and its programs
- Introduction to Different Interfacing Devices. Like Push Button, LCD, 7 Segment LEDs, ADC, DAC, Matrix Keypad etc

Topics covered on DAY 3:

- Programs for Interfacing Different Devices with ARDUINO board and Interrupts Programs
- Programs for Interfacing Different Devices with ARDUINO board and Interrupts Programs
- Communication Basics

Topics covered on DAY 4:

- Basics of Power electronic Converters and Arduino in Power electronic Converters
- Arduino in Power electronic Converters
- Application Program

Topics covered on DAY 5:

- Arduino with MATLAB

Brief Details of Workshop: -

A one-day Workshop on “Windows Presentation Foundation” was organized on March 14, 2016 at Smt. Chandaben Mohanbhai Patel Institute of Computer Applications, CHARUSAT, Changa. Total 200 enthusiastic participants had enrolled for the workshop. The workshop consists of technical sessions followed by hands on sessions on various aspects of WPF technology.

The aim of the workshop was to expose the student to modern technologies of current time.

The workshop was conducted by Mr. Abhilash M. Shukla on March 14, 2016. It was started at 9:10 a.m. He covered various topics like

- Overview of WPF
- WPF Architecture
- Three Rendering in WPF
- Overview on Basic controls & Layout available in WPF
- 2D Animation in WCF
- Database Connectivity in WPF
- Calling Web service/RIA in WPF

Name of Activity: Workshop on Advance Search Pattern of Online Database

Date of Activity Conducted: March 03, 2016

Faculty Coordinator / Resource Person: Mr. Randip Singh, Trainer, EBSCO, New Delhi

Number of Students Participated: 100

Target Audience: MBA / PDGM Batch 2015-17, Semester - II

Brief Report

EBSCO is the leading provider of research databases, e-journals, magazine subscriptions, eBooks and discovery service for academic libraries, public libraries, etc. MBA / PGDM Semester II students go for 6-8 weeks of Internship in an organisation where they have to carry out research work. The present workshop was organised to help student to identify the relevant literature which can help them in their research work. A practical hand on training was provided by Mr. Singh to the students regarding how to search various databases for good quality research papers. He also pointed out the use of Boolean words to effectively search the content available in databases.

Year – 2015-16

Name of Activity: Workshop on Online Access to Research Journals

Date of Activity Conducted: March 04, 2016

Faculty Coordinator / Resource Person: Mr. Mayank Dedhia, Manager, Training and Business Development, Informatics Publishing Ltd., Mumbai

Number of Students Participated: 105

Target Audience: MBA / PDGM Batch 2015-17, Semester - II

Brief Report:

Informatics is an early pioneer in the business of e-Information in India. It promotes e-Information across the higher education market of India for over three decades. Research Journal plays a very important role in making any literature review appropriate and acceptable. However, due to surge in the publication houses, it is very difficult to get access to all the journals at a single place. Informatics Publishing Ltd. makes this possible by providing access to large number of journals to the students. Mr. Dedhia demonstrated to the students how to get access to various journals with the help of name, author name, research title and other key words. It was followed by Hands on practise session to give student a feel about the user interface environment for the same.

Report of Avalanche'16

RPCP organized Avalanche'16 during 18th to 19th February 2016. Ms. Mansi Paradkar co-ordinated various events with students support from Mr. Pritesh Patel and Ms. Vandana Gupta.

Inaugural function of Avalanche'16 was held at 10:00 am on 18th February 2016 in august presence of Chief guest Dr. Narendra Soni, Dr. M.C. Patel, Dr. B. G. Patel, Provost CHARUSAT, Shri Naginbhai Patel and Mr. Devang Joshi, Registrar, CHARUSAT.

This year we had an overwhelming response of over 255 participants from more than 20 colleges all over Gujarat. We had 8 events out of which Pharma Mimic and Shout out-Dare to do had been introduced for very first time. We had 16 judges to evaluate the students participating in each event. They all came from different pharmacy colleges and industries. The two days of Pharma techfest- Avalanche '16 was both full of fun and was informative, this time with new thoughts & innovations.

Avalanche'16 had been organized with the support of Charotar University of Science & Technology and our sponsors Baroque Pharmaceuticals Pvt. Ltd., Amneal Pharmaceuticals, Citizen Industries, X-ray House, Disha Consultants, HK acharya & company, Chiti-chem Corporation, Phaarma Vision, Jagaji Construction, Spartan Travels, Mascot group and Esdee Paints.

It was pleased to release our 5th souvenir “Resurgence” with a message of prominent personalities like our Prime Minister Shri NarendraModi sir, Chief minister-Smt. Anandiben Patel, Education Minister-Bhuependrasingh Chudasama, Our President –Surendrakaka ,Hon secretary-Kelvani mandal-Dr. M.C. Patel, Provost-Dr. B. G.Patel sir, Registrar-Mr.Devang Joshi, Principal-Dr. R. H. Parikhsir.

The valedictory function of Avalanche’16 was organized on 19th February, 2016 in the august presence of chief guest Dr. Bhupendrabhai Patel, guest of honour Mr. Lalit saraswat, Dr. M.C. Patel Sir, Provost-Dr. B. G. Patel, Principal-R.H.Parikh Sir, Other dignitaries, invited guests, Participants and the students. The 1st and 2nd prize was awarded for each event of Avalanche’16 during valedictory function by the dignitaries.

A cultural Night was organized for the Participant of Avalanche’16 on 18th February, 2016 at 6:00 p.m. where the students of RPCP performed for dance, singing, mimicry, skit etc. Lunch and dinners during two days of event were also provided.
