**Expectations of University:**

As an outcome, CHARUSAT is preparing industry-ready human resources wherein the majority of the students should get employment as soon as they complete the education or become a job creator by becoming an entrepreneur. To achieve this objective, we are expecting the Faculty members to follow the following approach & methodology:

- Rigorous outcome-oriented teaching & learning methodology by using innovative learning techniques like regular exposure to Industry and their plants, good internship, well designed & monitored linked incentives and their credit system.
- Faculty need to integrate their industrial and consultancy experiences while teaching, use of case studies and real-life examples.
- Faculty should encourage to involve their student Industrial consultancy projects.
- Key practical experiments and case studies to be taken up in real-life situations in plants to explain interlinkage, complexities, the relevance of various concepts of professional areas.
- To develop entrepreneurship skills in students.
- Imparting & guarding value-based education in every aspect of teaching & campus life.

**Skills required:** He /she should be adaptable and have flair for all the above approaches and methodology in order to meet the objective of the Institution and their self-development.

**What's on offer?**

- ❖ A cooperative and Facilitative working environment.
- ❖ A long term career opportunity to grow.
- ❖ Pay packages commensurate with qualifications and experience
