

Co-curricular Activities

RPCP organizes as well as encourages to the student for active participation in various co-curricular activities. Co-curricular activities like poster presentation, oral presentation of review or research work, model making, pharma recipe, Pharma marketing, Sci-Toon etc. are being organized at RPCP. Students are also being guided by the faculties for participating in national and international events organized as in-house event as well as outside university. A program of the “PharmaVision” and such other Tech-Fests were hosted by the RPCP to impart skill of pharmacy profession apart from regular teaching-learning sessions. Every year more than 200 participants are participating in such co-curricular activities.
